THIS IS UNEVALUATED INFORMATION

25X1

- 1. During the war the Germans constructed an underground ammunition factory at Legnowo (P54/JOS). The factory, which is reported to be 16 m. underground, was closed down at the end of the war. In February 1951, barracks were built in the woods, and the whole area, including Legnowo and surrounding woods, was enclosed with barbed wire. Entrance is forbidden.
- 2. At the end of February 1951, 40 families, deported from Nowy Tomysl (053-W74) and district, arrived at Legnovo. As usual they were only able to bring hand luggage. Since their arrival, no one has been seen to leave the enclosed area; food is taken in by trucks.
- 3. Several unemployed persons from Bydgoszcz have been assigned to the Legnovo factory, but are still waiting for orders. Meanwhile they have been told to settle all their personal affairs, as they will have to move to the factory
- In early March 1951, two out of the four chimney stacks were seen to be in constant use.
